"COMMENTS ON RM-9242"

To Whom It May Concern,

I am writing about the Low Power FM service that is being considered. I have always wanted to own and operate a professional low power radio station. I have tried to file for a full power service, but the money involved is (beyond my reach) expensive. Under RM-9242 I will be allowed to own and run a station for a lot less at the same time as get the coverage that is required to keep the station on the air. Thank you for your time and consideration in this matter.

Sincerely,

Jonse Schroeder
